Reddit vs. Wall Street: the latest in the GameStop saga

Subreddit r/WallStreetBets has been the talk of the Internet this week, as its members have driven GameStop's stock prices from around \$20 to over \$300.

KEY POINTS

- Data firm Thinknum saw mentions of GameStop start spiking on Reddit days before the stock started rallying again, co-founder Justin Zhen told CNBC.
- “The volume today has been insane, but we see a huge spike in advance of the run-up of the stock yesterday,” Zhen said.
- Thinknum launched its Reddit-focused dataset after January’s GameStop frenzy.
